“ Brian was my stepdad. He was so cool to me. He took me to the Styx Concert in about 1975. It was great. I still have the ticket stub. Brian had a Great Perinese Dog and a jacked up Chevy named Thunder. I was 12 and he was cool! He never complained about my presence and treated me very well. I have searched for him for many many years but could find him. So to whoever loved him, I'm so sorry for your loss. Call me if you need anything.
