“ *My most sincere condolences Go to you Allen and Paul, I lost my most dear friend and I'm going to miss her greatly .i have been sad that Donna was not able to be in her home all these years and I know how much it hurt her to not live there. So I'm glad she's at Peace. Donna and I had so many fun times we were more like sisters than friends. We loved to spend time together going fishing, shopping doing crafts. We spent so many holidays together Christmas and thanksgiving haven't been the same without you my dear friend. I'll miss your kind gentle spirit but I'm happy your out of that rest home when you should have been in your own home all these years. Sad that your last years were spent mostly alone . Save a spot for me I'll be there in a year or two . Love to you dearest friend always in my heart.*
