“ *This is the first I have seen of this memorial. Jolyn lived with me for five years. She was one of kind and I still miss her. I hope her family is well.*

“ I knew Jolyn for 2 1/2 years. When I started working at the Embassy Suites, she was our Night Auditor. I would pass the baton to her at the end of my shift and that's extent of our interaction. She was one of two team members I was told to steer clear of; however I ignored the warning. As a result I was witnessed several contradictions to her reputation such as seeing her react with laughter, participate with a smile & I even heard her singing more than once as she arrived for work. It is never easy to lose someone suddenly. Our annual front desk outing was the same date of her passing; she was unable to attend because she had to work overnight. The night before, as I'm about to leave she remarked she'd have to wait until Friday to get any/all the juicy gossip from the outing (we wouldn't work again until then). I assured her I'd deliver the goods, if any. The discussion wouldn't happen, sadly. She was one of a kind and there are echoes of her everywhere around the office.  
RIP Jolyn
