“ I have a good memory of going to Disneyland in 1985 with my Dad and the family. We stayed in a hotel, girls had their own room and boys had theirs. I remember spending time together and riding the fun rides. And also going to Knots Berry Farm and riding the log ride and getting soaked... lol. We enjoyed the trip a lot! Also remember spending time at Grandma's house with Dad and grandma and looking out the windows of her house at the beautiful San Francisco Bay and all the sail boats in the summer. Really the only times we spent much time together, but I do cherish the time we spent together!
